

U.S. COMMISSION TO DISTRIBUTE COAL

STATES TO SEIZE AND RUN MINES, IS GOVERNMENT PLAN  
EMERGENCY PLAN URGED IF OPERATORS FAIL OF SUCCESS  
FIVE ARE DOING IT  
Powers of Commonwealths Broad; Can Negotiate and Limit Prices.

Washington.—The United States government has determined upon a plan to get coal for the American people if the present effort of the operators to mine coal should fail. Realizing that the federal government cannot seize the mines or even regulate them because of the constitutional power to do so, the governors of the various states of the union where coal is produced will be called upon to seize and regulate the mines in order to insure a fuel supply to the states.

Transmuted as the supreme court of the United States has decided that the mining of coal is an intra-state matter and subject wholly to the jurisdiction of the states, except in the time of war, the duty of the states to express their autonomy cannot do what the federal government cannot do will be emphasized. Such a step might have the effect of breaking up the mining union altogether, and that reason will not even be suggested only as a last resort.

Five States Active  
Five states already have successfully carried out this policy without a word from the federal government, which thus far has refrained from any action. These are: Colorado, Utah, Kansas, New Mexico, and Oklahoma.

Groesbeck Asks Michigan Miners to Resume Work

Washington.—Distribution of coal during the strike emergency through a special commission was understood today to be the administration's plan to make certain the fuel necessary to continue railroad operation. The matter was discussed at Friday's cabinet meeting and later it was understood that Secretary Hoover, acting for the president, had undertaken the formation of the commission. Formal announcement of the plan was expected before night.

Interstate Commerce Commission working on priority plan to divert nonunion mined coal to northern lake ports and railroads which are short with possible rationing of industries if strike lasts.

Ohio guardsmen stationed at two strategic points. Consolidated Coal company, however, wired President Harding that Gov. Davis had refused protection and asked for federal troops.

Put up Proposition  
"I am of the opinion" the governor's message stated, "that the most effective way to deal with the coal situation is to have the mines operated by a final adjustment by the national body and therefore I ask you to consider the proposition."

Old Wage Scale  
"Second in the event that it should become necessary for the state to take the mines whether the miners will return and start production of coal for municipal and state needs, any surplus to be disposed of by a committee of the miners."

Wisconsin Labor May Not Indorse Candidate; Speaker Attacks Courts  
Oshkosh.—Indorsement by the Wisconsin State Federation of Labor probably will not be given to the candidate for re-election to the U. S. House of Representatives, Mr. La Follette, for re-election at the Republican primaries, as a result of withdrawal of the resolution expressing support of the candidate. The resolution was withdrawn because of the belief of the labor convention that its precedent of never endorsing any candidate for public office should remain unbroken.

SUPERVISORS GO ON TOUR OF TWO ROUTES FOR NO. 20

COUNTY BOARD INSPECTS BOTH FOOTVILLAGE ROADS.  
TO VOTE LATER  
Careful Consideration Is Indicated—Sentiment Is Strong.

With no inclination to make a hasty decision, without first having viewed both routes and heard all angles, the Rock county board of supervisors met in special session here Friday morning for a call to consider ratification of the relocation of trunk line highway No. 20 as outlined by the Wisconsin highway commission.

It was expected that the trip would take more than two hours, the supervisors feeling that a hasty inspection would do no good. Speakers were called upon by Mr. O. O. O'Neil, all of whom argued in favor of the present route. At 11:30 the board adjourned.

New Route Suggested  
Anticipating non-acceptance by the Wisconsin highway commission of the present route, because of the railroads, Frank Fisher, Rock county farmer, offered as a solution the suggestion that "Highway 20" be kept on the north side of the St. Paul tracks to Hanover, running out Pleasant street from Janesville and continuing from Hanover the present route to Orfordville but with a detour to the south side of the tracks at that village, and then running on the present route to Broadhead. This would mean three would be on the whole route, only two on the present route.

## Take Mastin's Vitamon To Build "Stay-There" Flesh and Clear Skin

Easy and Economical To Take—Results Quick

This run-down folks should find this simple test will work for them. First weigh yourself and measure yourself. Next take MASTIN'S Vitamon—two tablets with every meal. Then weigh and measure yourself again each week and continue taking MASTIN'S Vitamon regularly until you are satisfied with your gain in weight, "pop," energy and improved appetite.

MASTIN'S Vitamon Tablets contain highly concentrated yeast-vitamins as well as the two other still more important vitamins (Fat Soluble A and Water Soluble C) combined with true orange juice and the necessary trace salts all of which Science says your body must have to keep you strong, vigorous, well-formed and fortified against the onsets of disease. By increasing the nourishing power of what you eat MASTIN'S Vitamon helps supply just what your body needs to feed the abundant tissues, strengthen internal organs, clear the skin and renew shattered nerve force without upsetting the stomach or causing constipation. Pimples, boils and skin eruptions seem to vanish as if by magic under its healthful, purifying influence. But it is not only a question of how much better you look and feel, or what your friends say and think—the scales and tape measure will tell their own story. A two weeks' test will surprise you.

WARNING! Your safety and health depend upon getting MASTIN'S Vitamon Tablets. If it isn't MASTIN'S it isn't the Original and Genuine VITAMON—the World's Standard—now used by millions and recommended by doctors. Beware of imitations, cheap substitutes or so-called "vitamin tablets." Insist upon MASTIN'S. At all good drug stores, such as:

Dinner was served in the dining room of the Odd Fellows building and the business session followed. Program consisting of vocal and instrumental music, participated in by members from the different

lodges and an address from the State President, Miss Louise Notitz. Orfordville went to Janesville Friday to listen to the discussion of the relocation of highway 20.

The Brittingham and Elson company are rebuilding their coal sheds at the west end of their yard. They received their first load of anthracite coal this week.

## STATES TO SEIZE AND RUN MINES, IS GOVERNMENT PLAN

(Continued from Page 1.)

mines be seized and regulated just as the fuel administration did during the war, but wage agreements can be negotiated directly between workers and operators, and the price of coal to the consumer can be definitely limited. Once the negotiations were successful as between the miners in

a state and their employers, the chances of the national union recovering its influence with the miners would be imperiled.

Administration officials conversant with the intimate details of the conference which took place here between miners' and operators' representatives say that, because the operators in those five states mentioned above were getting along so well with their men, they naturally declined to come to Washington to put themselves once more under the influence of John L. Lewis of the miners' union.

These administration officials say, however, that if Mr. Lewis had accepted arbitration the number of operators refusing would have been negligible.

For the first time in labor history, said a cabinet officer, "the miners had before them in conference 92 per cent of the operators. John Mitchell never had more than 40 per cent. And out of the 92, fully 75 per cent were ready to accept arbitration. If Mr. Lewis had agreed, on behalf of the miners, to arbitration, it would have been a simple matter to compel the other operators to come in, too. During President Roosevelt's administration John Mitchell was the one to accept arbitration promptly, and then Mr. Roosevelt had a leverage in public sentiment with which

he was able to persuade the operators to agree likewise.

**Would Force Operators**

"In those four or five states, where independence of the unions had been achieved, there was a natural desire to refrain from a Washington conference, and it was largely Mr. Lewis' desire that the federal government force those operators into conference which prevented an agreement. All talk that we didn't have representative operators here is erroneous. We had practically all the representatives of the union fields and many of those from the mixed fields."

The federal government's policy for the moment is one of watchful waiting. The operators say that 70 per cent of their employees will go back to work if they can be assured that their homes will not be blown up. Protection is being granted to prevent disorders or destruction of property. If, in the face of that protection, the miners do not come back to work, the governors of the states will be urged to seize the mines and regulate their operation by negotiating separate scales of wages as conditions in each state may require. Thus a failure of the miners' leaders to reconsider their refusal to arbitrate may mean a body blow to unionism through the natural course which the federal and state governments may find themselves compelled to adopt in the interest of public safety

## MERCHANTS CUT PRICES OF FRUIT

General Reductions are Seen Here—Vegetable Prices Unchanged.

The fruit market this week is characterized by price reductions in nearly all species of fruits. Prices, as usual, range a great deal.

Green pears from California, sell all the way from 40 to 75 cents a pound. They arrived only last week. Seedless grapes are down to 40 cents a pound in places, and are finding a good market here. Some stores are putting up special boxes of California cherries, each one containing a little less than a pound, and selling for 25 cents each. This is a great reduction over the prices of the past few weeks. Honeydew melons, also among the latest arrivals, are still high in price and are classed as they will be all summer, as a luxury among fruits.

**Cantaloupes are Cheaper**—No cherries, even the northern variety, are even. Some were in the city throughout the week, but are hard to find now. The last of the home-grown cherries went a week ago, after one of the best seasons in years.

Cantaloupes are also joining the slide to low prices and are seen for as low as three for a quarter. Some sell for much higher prices, the size and quality making the difference.

usually being the determining quality.

Plums are seen in quantities, both the red and the blue variety. The price is the same as last week—all the way from 25 to 30 cents a dozen. Red raspberries are still scarce, although it was predicted last week they would not last another 7 days. Those now in market for 22 and 25 cents a pint, are the last of the season. Black raspberries are also vanishing at 15 cents a pint, while blackberries, now at 23 cents a quart, are good for a few more weeks.

**Peaches and Apples**—Watermelons have dropped a few more cents and are selling in places for as low as 32 cents apiece. Most places depend on higher price, however, as the season for them is still young. Peaches are still 25 cents a basket for the Michigan variety, 50 cents a dozen for the Georgia variety. Blueberries and currants are still 55 cents per quart. The only apples now in the market are the new green ones, some for cooking and some for eating. They range from 3 to 10 cents a pound. Lemons are down to 25 cents a dozen, oranges are selling in places for as low as 35 cents a dozen, and bananas are 10 cents a pound. All these prices are unusually low.

Prices on vegetables, of which there is now a great variety, are all about the same as they have been. Green corn is selling at from 25 to 35 cents a dozen ears; green peppers are 5 and 10 cents each; tomatoes, 15 cents a pound; celery, 10 cents a bunch; carrots, 10 cents a bunch; leaf lettuce, 5 cents a large bunch; head lettuce, 15 and 20 cents each; beets, 5 cents a bunch; cabbage, 4 and 5 cents a pound; cucumbers, 5, 10 and 15 cents each; onions, 7 and 10 cents a pound; butter, 25 to 30 cents a pound and eggs 23 to 30 cents a dozen.

# ALL CITY INTEREST RECORDS BROKEN

\$13,000 Credited on Deposits  
This Year—\$12,000 for  
All of 1921.

All records for receipt of interest on deposits of the city's money have been broken this year. It is estimated by City Clerk E. J. Sarrell and City Treasurer W. J. Lennartz that interest for the first six months of 1922 aggregated \$13,000, the records show, compared to a grand total for the entire year of 1921 of \$12,000.

By the end of this year it is expected the total will be in excess of \$17,000. In making out the 1922 record, last year, it was estimated interest received would be \$12,000.

The city receives interest at the rate of 3 percent on daily deposits, the funds being divided among the five banks.

March was the biggest month for interest this year with a total of \$2,430.92. The record month of 1921 was October, \$1,549.92.

On July 1 this year the city had \$321,600 more on hand than at the same time last year, Mr. Lennartz said. The general fund totaled \$300,326 on July 1, 1922, compared to \$277,538 on July 1, 1921. Since the first of this month, expenditures from the fund have aggregated \$70,000.

# SEEK PLACES FOR MORE CHILDREN

Places for a few more children of the city of Chicago for a two weeks' outing here have been secured, but the committee working on the matter with the Red Cross and Supp. T. O. Holt wishes placed for children this year. The contingent is children from Chicago, the first of August to come here after the first of August or a week later.

The Chicago committee working to give outings to thousands of Chicago children, many of whom have never seen the country, states: "You who live in the country can bring joy and happiness to some of the thousands of poor little tenement children of Chicago this summer. You can do it at a very small expense and a little sacrifice on your part. The pleasure you will receive will more than repay you."

The committee promises an attendant for the children, a nurse, a doctor, and a cook. They will be cleanly dressed. Those wishing to take a child are asked to call Mrs. Sidney Boatwick.

# COMPLETE TESTS OF GIRLS FOR OUTING

Exams for girls for Camp Rotunda's three girls' camps, the first of which will start next Wednesday, were all held the first two nights, Tuesday and Wednesday, at the rest home of Mrs. M. J. Janssen, 111 E. 1st St. Any girls going to camp and who have not had their exams must report to Miss Marian Marshall at the Y. W. C. A.

Miss Marshall is still asking for girls for camp. The girls must be under 18 and must be able to read and write. They must be recommended by a parent or guardian. The girls must be able to read and write. The girls must be able to read and write.

# \$300 TO \$500 LOSS IN THURSDAY'S FIRE

Wilhelm Pettersson and three children, of Malmo, Sweden, arrived in this city, Thursday, to visit for three months with Mrs. A. M. Malmberg, 448 South Garfield avenue, and J. A. and M. J. Janson.

Mr. Pettersson is their brother-in-law. His wife died two years ago in Sweden following an attack of influenza. He is working in the inter-est of the Swedish government, making agricultural investigations. For some time Mr. Pettersson will carry out his work at the agricultural college of the University of Wisconsin.

Following their stay in America they will go to Italy where he will complete his survey.

# Eight Quality for Fire Department

Eight men were examined by members of the police and fire commission for eligibility in the fire department, Thursday night at the city hall. Although applications were received from 12, only eight were present. Those who successfully passed the examination are: Raymond Quigley, James Casey, James R. Varley, M. H. Hull, Verne Bickie, D. W. Bax, Herbert Platter and V. T. Moore. Six of them are now on the department.

Fire Chief Con Murphy presented a written statement to the effect that John Minick had resigned from the force, July 1.

The examination conducted by the board consisted of questions on the locations of fire boxes and other matters necessary to admittance. The commission is composed of T. P. Burns, secretary, John Francis, Guy Wolfe, M. O. Mount and George G. Sutherland.

# JANESVILLE MAN FINED FOR SPEEDING

Walter Guyot, Janesville, was fined \$10 and costs amounting to \$12.40 in municipal court, Friday morning, after pleading guilty to a charge of speeding. Guyot was arrested Thursday by Officer Porter on Center avenue, where it is claimed he was going 30 miles an hour.

# NEXT MEETING OF COUNCIL, MONDAY

Little business of importance is listed so far for the regular city council meeting, Monday night. A dozen license applications are to be heard and a petition will be read asking for the grading of North Pine street above Mineral Point avenue. It will be the first meeting for Mayor T. E. Welsh since June 25th.

# HOT WEATHER HINT ICED COFFEE

Iced coffee is not only a delicious summer drink, but it also furnishes a mild stimulation that is particularly grateful on a hot day. It may be combined with fruit juices and other ingredients in a variety of cooling beverages, generally popular with men.

Coffee, that is to be served cold should be made somewhat stronger than usual. To get the best results get a package of Thomas J. Webb Coffee from your dealer. Brew it according to your favorite method and chill before adding sugar and cream. If cracked ice is added make sure the coffee is strong enough to provide for the dilution caused by the ice. Mixing the ingredients in a shaker produces a smoother beverage topped with an appetizing foam.

# SUPERVISORS GO ON TOUR OF ROADS

(Continued from Page 1.)  
ed, that the promise will not be respected by the state highway commission.

Upper Road Hilly  
It was pointed out that the new route which is the upper Footville route is a series of hills while the lower road goes over practically level ground.

J. A. Drummond, Janesville, who together with George Woodruff and Commissioner Charles Moore worked to put the concrete road bond issue over in 1919 said that he had made no promise at that time that the new route would be concrete and that it was then laid out.

It is a matter of cut and fill between here to Footville and from Footville to Orfordville under the new lay-out of the highway commission," said Mr. Drummond. "A cross three miles long must be made and the road in some places extends to a depth of nine feet. This must be filled in. I don't think it is economy to spend a large amount of the funds for roads on this road."

Bring Boots, Taylor Warns  
It was pointed out that the new route would not be far from trunk line 10 while those living to the south would not have a road.

B. J. Taylor, Orfordville, who caused much amusement when he told the supervisors to take their rubber boots along when inspecting the new route near Orfordville because of the slim, declared that the road should go where it would benefit the greatest number of people.

One of the signs, "This will be complete if you vote for the bond issue in April" taken off a tree near Orfordville was produced as argument for the new route. Other speakers thought the railroads should protect the public by maintaining watchmen at the crossings.

"It's gotten so that instead of the

railroads protecting the public, the public has to evade the railroads," said Charles Taylor.

Argument for the present route was offered in the fact that it runs but two miles from Footville and that a connecting link of concrete could be constructed.

Monday Session Looms  
Judging from the progress being made the Rock county board of supervisors will be in session again Monday as when the relocation matter is decided the question of the highway construction program for 1923 remains to be acted upon. The supervisors plan to visit the construction work being done, which was characterized by Supervisor M. P. Richardson as making faster progress than any place in the state.

For the second time this year, the county board met without the roll being called by Howard W. Lee, veteran county clerk, who up to this year had not missed a session in 13 years. Miss Sylvia Pero, deputy county clerk, acted in his absence.

## COMPROMISE, PLEA OF ST. PAUL HEAD

Seniority Only Question on Which Railroad Strands Pat.

The first open move for peace in the strike of the federated shop cratts was received here Thursday in the form of a special bulletin addressed to all officers and employees of the Chicago, Milwaukee & St. Paul railway. The bulletin closes with the ultimatum: "We do not want to employ new men, but cannot wait much longer."

The chief official of the road states this company is willing to discontinue shop contracting, sending repairs out to private concerns; is amenable to establishing a national board of adjustment and is ready to accept all suits and injunctions against the strikers' organizations. But the road stands firm on its refusal to restore striking employees to their former seniority.

The strikers' organization of Janesville procured a copy of the bulletin shortly after it was received here. "We have taken no action on it," was the comment of Charles Swan, secretary of the strikers' organization and member of the public utility committee. The bulletin reads:

"All Employees: "There are negotiations now in progress for settlement of the strike. The conferences conducted last week in which I participated indicated that the men were now willing to accept all the decisions of the labor board and call off the strike provided the railroad would agree to:

"First, discontinue shop contracting. "Second, establish a national board of adjustment. "Third, dismiss all suits and injunctions against the organizations. "Fourth, restore striking employees to their former seniority."

"The C. M. & St. Paul is willing to agree to all these conditions except the last. The splendid work done by the employees who have remained at work reveals the highest type of loyalty and devotion to duty, which is greatly appreciated by the company and we are not willing to go back on these loyal employees, but we are willing to have the employees now out of service return to work under the 1922 provisions of my letter of July 4, 1922, which provides that they shall rank behind the men now at work."

"At this time, the question of seniority is not a large one because but few men have been hired and I earnestly urge the men now on a strike to consider the situation carefully and return to work without losing any more pay so we can resume getting our equipment in repair for the fall business."

"We do not want to employ new men but cannot wait much longer."

## "SMILIN' THROUGH" TO BE SHOWN AT APOLLO NEXT WEEK

NORMA TALMADGE

"Smilin' Through," with Norma Talmadge, has been booked by Manager James Zanias for the Apollo for four days next week. "Smilin' Through" is a picture of the type that will please all classes of theater patrons. It has enough spirituality to please those who are inclined to be a little idealistic, and yet has enough action and beauty of scenery and persons to satisfy those with a more material trend of mind.

Altogether, "Smilin' Through" is said to approach perfection in motion picture presentation as much as any picture ever produced. It will be shown at reduced prices.

## CEMETERY PAVING JOB IS DEFERRED

Strike Situation Causes Postponement to Aug. 1 on Bids.

At a meeting of directors of the Oak Hill Cemetery association Thursday afternoon at the office of James A. Fathers, bids for a 1,700-foot paving stretch in the cemetery were returned to the contractors. This action was taken after the coal miners' strike and the shopmen's strike would make the shipment of cement necessary for the job so uncertain that the contractors would not be given fair consideration. The board voted to call a meeting for Tuesday, Aug. 1, when now bids will be received. The plans of the association are to lay a 1,700-foot stretch from the end of the present concrete stretch at the chapel north to the waiting room, and then west on the hill to a point on Summit avenue near the reservoir. This would give a paved artery running directly through the cemetery, making all lots more easily accessible.

Three local contractors—Kaysa, Fountain-Hynes, Noosa, Ford & Sons.

## ONE TRICK A NIGHT

**"THE VANISHING COIN"**

A coin is shown in the palm of the hand. After a quick flourish it has been made the coin is seen to disappear.

This is the sort of trick that can be worked in many ways and used on many occasions by the display of a little ingenuity.

Place a small quantity of shoe maker's wax on the nail of the middle finger. Show the coin in the palm of the hand and then, by clenching the fist, shift the coin to the wax on the finger nail. When the hand

INDIAN NATIONALISTS

**INDIAN NATIONALISTS  
OBSERVE GANDHI DAY**

Calcutta.—The working committee of the Indian national congress has asked Indian nationalists to continue to observe the 18th of each month as "Gandhi Day." They have done for two months. It was on March 18 that Gandhi was convicted of sedition and sentenced to imprisonment. On April 8, he was again sentenced to 18 months in prison for the same offense. Henceforth, the date is to be held regularly each month.

Officials explain that local communities participate to a very limited extent in the nations taxation proceeds.

Hence they are obliged to look around for fresh sources of revenue and the lodging house tax affords one of the easiest ways for communities to increase their income.

BOYS FIND WEST  
ISNT SO "WOOLY"Janesville Trio of Tourists  
See Wonders of  
Arizona.

Through the wilds of the western country, over the same roads of the early pioneers, traveled the second week of July, the modern caravan transporting to their destination at Stockton, Calif., three Janesville boys, Robert Earle, Al Glancy and Eugene Culver. The boys left Janesville more than four weeks ago in a fully equipped Samson truck bound for California for a real vacation trip. It is expected they are now in California. The boys have been in no hurry to reach their destination and have bathed in all size streams from here to the coast.

Comparisons were made of the western country as they saw it and as visualized from motion pictures. According to Alfred Glancy, they are even better. They are dressed up in pink, red and green silk shirts and wear big, two foot wide trousers. Some of them had fancy boots and some carried guns. But according to the boys the wild and woolly west is getting pretty tame with most of the cowboys forsaking their horses and going to the cities. They have seen some have even learned how to ride range and herd cattle with "flivvers."

See Petrified Forest.  
Near Springville, Ariz., the boys made a short detour through the petrified forest and brought out enough pieces of the stone to build one of their own. They were told by a man that the trees probably floated down from some northern country such as Alaska, but from appearances and other conversations they were led to believe they grew right there, as there are stumps sticking up right at the foot of a fallen log in some places. The trees however are not whole, but broken into many segments.

A background to this old spot, there are old mounds, of different colors, most of them being blue and gray. Above this is a line which looks as if it had been a water level for a good many years. Bob Earle, chief navigator, said the boys could see Holbrook about 15 miles before they came to it, because of the flat surface of the land.

## Inspect Meteor Mount.

Near Winslow, Ariz., the boys stopped at Meteor Mount.

"We found the man in charge of the place that when the meteor struck it acted like a stone does when it lands in water," said the navigator. "That is, the earth rose up 300 feet in the air and the meteor fell into it. The meteor is one mile in diameter and has a crater in the center which is 600 feet deep and 4,000 acres. It did not look that big to us before we knew. We went down into it. That was not hard, but coming out was, as the slope was about 50 degrees. We found a mining shaft at the bottom which was sunk 245 feet. Out of the ground here they get silica, 90 per cent pure material which is 500 feet below the bottom of the crater. It is believed to be 500 feet in diameter and 450 feet deep. They are now sinking an oil well in search of it. If it is so they can mine it, it will prove valuable."

"Late in the afternoon of July 13 we arrived at the Ancient Cliff Dwellings. We spent two and a half hours there, playing monkey, and cave-man, climbing around through the caverns, which are about 200 or 300 feet deep and wind in and out for five or six miles. The dwellings of the ancient men are built under the overhanging rocks which for the most part are about half way up the sides of the cliffs."

"The water here is good but on account of the railroad strike no water is being shipped up into the Grand Canyon. The temperature yesterday was 119 in the shade."

## BRIEFS BY WIRE

St. Cloud, Minn.—Damage estimated at \$150,000 was caused by a severe wind, hail and rain storm.

Topeka, Kan.—Governor Allen authorized the arrest of William Allen White, editor of the Emporia Gazette, for alleged violation of the anti-picketing provision of the Kansas industrial court law.

Miami, Fla.—The converted auxiliary schooner Wm. H. Asbury was held up by motor boat pirates and her master shot dead, according to a wireless message.

New York—Former Ambassador Gerard declared a sharp cut must be made in the reparations assessment asked from Germany to save that country from ruin.

Elmhurst, Ill.—Andrew Kmas, a resident of Mason, "died" one day this week and came to life while the barber was trimming his hair preparatory to burial.

Ludington, Mich.—John G. Gamber, state fire marshal of Illinois, was elected president of the National Firemen's association.

## Operation Not Successful

"16 years ago I was operated for appendicitis and later operated again for gall stones. Neither did me any good and I suffered all kinds of torture since. Five years ago I took May's Wonderful Remedy and have felt no symptoms or pain since. All stomach troubles should take it. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practical all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. People's Drug Co., and druggists everywhere."

St. Peter's Daily  
Bible School to  
Close on Friday

Closing services of the daily summer school of St. Peter's Lutheran church will be held at 7:30 Friday night. This will be a public service and will show the results of the summer work. The school has been in daily session for five weeks, with an enrollment of 110 and an average daily attendance of 94. Pastor G. J. Muller as principal was assisted by the following teachers, Misses Edna Larson, Olga Knech, Dorothy Knech, Gladys Hols, Doris Summerfeld, Catherine Davis, and Esther Marsh.

Part of the program for the evening was a song, "Silent Night," seventh year class; also "Jerusalem, the Golden," Harold Raasmussen; psalm 100, Robert Albrecht; "Abide With Me," Frederick Albrecht; "As With the Glorious Army," "The Lord's Prayer," "Ten Commandments," Marian Christensen; "I Will Lift Up Mine Eyes unto the Hills," Paul Duggs; "Rock of Ages," Ruth Riech; Apostles creed, Marian Jantzen; "Jesus Teach Me Day by Day," Althea Bloch. The girls of classes 10, 11 and 12 will sing "Lord of All Power and Might."

Boys Having Good  
Time at Delavan

Trinity church boys' camp at Delavan lake is going smoothly with fishing, swimming and hiking making enjoyable the two weeks' outing. Fruits, watermelon and cake were brought to camp Wednesday night by Supt. J. J. Hoover, and drum and cake were given the boys by J. G. Gregory, choir director.

A large number of Janesville people motored to Manhattan resort Thursday night. The boys' camp was given by the choir, under Mr. Gregory's direction, before a large crowd. It is to be repeated in Janesville in the fall.

Contrary to previous plans, Rev. Harry Williams will return to Janesville for Sunday services at 10:30 a. m. and 10 o'clock, instead of 10:30 a. m. as usual.

Father Wilmann's car has been running up a good mileage, between Janesville and Delavan lake. So far this week it has gone 200 miles, with three trips to Janesville to its credit. The boys will return July 29.

## YOUR DRUGGIST

Does not keep Pinkham's Compound. He sells it.  
During the year 1920, nearly 3,000,000 bottles of this medicine were shipped from the factory at Lynn, Massachusetts. There is also a branch in Canada and one in Mexico.

Lydell E. Pinkham's Vegetable Compound has the largest sale of any medicine for women's ailments. Every day, more and more women are cured of their ailments. Made of selected roots and herbs, this compound contains no harmful drugs and can be taken in safety by any woman.

Cocoon Oil Fine  
For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Mulsified cocoon oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply put two or three teaspoonfuls of Mulsified in a cup of glass with a little warm water, then moisten the hair with water and rub it in. It will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Mulsified cocoon oil shampoo and any drug store. It is very cheap and a few ounces is enough to last everyone in the family for months. Be sure your druggist gives you Mulsified.

News for Farmers  
Farm Bureau Official InformationSAPIO SEES BIG  
FUTURE FOR FARMS

Predicts Cooperative Marketing as Universal in Next 10 Years.

"In ten years the farmers of the United States will be marketing their crops strictly on a co-operative basis, and when this group method of handling farm commodities is brought into force throughout the country the producer and the consumer will both be the gainers."

This statement, which will be of interest to Rock county farmers, was made at a time when he indicated their interest in the co-operative marketing of tobacco and milk, is from Aaron Sapio, who has been in Wisconsin helping both the tobacco pool and the milk pool. Mr. Sapio is one of the greatest authorities on co-operative marketing in the United States.

Mr. Sapio at a recent dinner given by Otto Kahn, New York banker, was asked why California fruit has run away with eastern markets and why the California made profits last year, while the farmers in nearly every other section of the United States spent their time fighting their way to the market.

Mr. Sapio answered: "California growers' made money because they have made a study of the methods of the steel corporation and have applied the system to their own business. The same can and will be done by the farmers of every part of the country. It has been the habit of farmers to dump their output wherever it was grown as soon as it was grown, thus creating a glutted market. By selling a gigantic over-supply in small market towns, and then to wait for dealers and speculators to come and take it away from them at the prices likely to prevail in a glutted market, the farmer has been at a disadvantage. The steel corporation never broke its own prices by dumping steel rails anywhere and then hoping somebody would come along who would take them over at a cut rate. The steel corporation

## FOOD MONOPOLY IMPOSSIBLE

Mr. Gary's reply was, unexpectedly, that he feared the pooling of crops would lead to monopoly in foodstuffs. Mr. Sapio answered was equally unexpected. He did not say, as he might have, that the steel corporation was a good deal of a monopoly itself. He said instead that a monopoly in food was impossible since unduly high prices would ruin the pooling organization by killing independent farmers an opportunity to undersell. Too heavy prices on agricultural products have always led to over production sufficient to smash any combination.

Potato Grading  
Brings \$200,000  
to Badger Farms

Madison — Grading of potatoes resulted in a financial benefit to Wisconsin farmers and dealers of \$200,000 the state department of markets estimates. In a statement today, B. B. Jones in charge of potato inspection, says that by standardizing the crop the farmers were able to obtain higher prices than would otherwise have been possible.

Wisconsin potatoes which sold on a par with the Minnesota product before the grading system was established in 1921, brought from five to 15 cents a hundred more on the Chicago market this year, the department says. An average increase in price of five cents a hundred on

keeps track of who wants steel rails and where they are wanted. It ships rails to purchasers in the quantity desired. It delivers rails not where they are made, for nobody wants them there, but where they are to be used. It puts down rails not at the point of production, but at the point of consumption. It tends not only to the marketing of rails but also to the merchandising of them. And that makes all the difference to the steel corporation between bankruptcy and prosperity. When we took that last out of your book it made all the difference between poverty and prosperity. Addressing himself to Elbert Gary, head of the steel interests, Mr. Sapio answered:

"California growers' made money because they have made a study of the methods of the steel corporation and have applied the system to their own business. The same can and will be done by the farmers of every part of the country. It has been the habit of farmers to dump their output wherever it was grown as soon as it was grown, thus creating a glutted market. By selling a gigantic over-supply in small market towns, and then to wait for dealers and speculators to come and take it away from them at the prices likely to prevail in a glutted market, the farmer has been at a disadvantage. The steel corporation never broke its own prices by dumping steel rails anywhere and then hoping somebody would come along who would take them over at a cut rate. The steel corporation

Mr. Gary's reply was, unexpectedly, that he feared the pooling of crops would lead to monopoly in foodstuffs. Mr. Sapio answered was equally unexpected. He did not say, as he might have, that the steel corporation was a good deal of a monopoly itself. He said instead that a monopoly in food was impossible since unduly high prices would ruin the pooling organization by killing independent farmers an opportunity to undersell. Too heavy prices on agricultural products have always led to over production sufficient to smash any combination.

## Thomas J. Webb COFFEE

### AT 10c BELOW THE REGULAR PRICE

Careful buyers—here is your opportunity to purchase the best coffee at a price below the market—an unusual offer. We know that once you have tried Thomas J. Webb Coffee and enjoyed its delicious flavor and aroma—you will be satisfied with no other. That's why we make this special offer.

Thomas J. Webb Coffee is the coffee that is roasted in live flame by the famous Webb Process. Half the aroma of the average coffee is lost in the roasting. All you get is the coffee bean—the aroma is gone.

But with this live flame roasting, the tiny cells which contain the essential oils are sealed and the aroma is locked up in them until it is released by the boiling water of your kettle and ready for your cup.

Thomas J. Webb Coffee is sealed in airtight containers, ground, with all the chaff removed.
